54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	<input checked="" type="checkbox"/> Age <input checked="" type="checkbox"/> Race <input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) <input checked="" type="checkbox"/> Length of time in the facility <input checked="" type="checkbox"/> Housing assignment <input checked="" type="checkbox"/> Gender <input type="checkbox"/> Other <input type="checkbox"/> None

Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	2
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

<p>84. Did you have access to all areas of the facility?</p>	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

Was the site review an active, inquiring process that included the following:

<p>85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?</p>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<p>86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?</p>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<p>87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</p>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<p>88. Informal conversations with staff during the site review (encouraged, not required)?</p>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<p>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</p>	<p>During the on-site review the residents were on the living units so the auditor had uninterrupted access to them at the time.</p>

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?

- Yes
 No

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

While onsite, the auditor reviewed ten staff human resource records which required additional documentation that was provided by the facility during the evidence review phase and prior to issuing a report. Resident social files were reviewed while on-site, additional documentation regarding resident education and screening assessment from interviewed residents were requested and provided during the evidence review phase. Due to no sexual abuse or harassment allegations over the past twelve months, the auditor did not review any investigative files.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

McCracken Regional Juvenile Detention Center provides pre-trial detention of all alleged delinquent juveniles serving approximately eleven counties in the western region of Kentucky. Generally, a resident's length of stay is short term detention situations and held for local court hearings. The facility serves both males and females between the ages of 10-18.

According to the 2020 and 2022, McCracken Regional Juvenile Detention Center Staffing Plan Development Process Form staffing plans, the facility has developed, implemented, and documented a staffing plan that provides for adequate levels of staffing, and where applicable, video monitoring to protect residents against sexual abuse. Detention facilities are required to maintain an eight to one (8:1) juvenile-to-staff ratio during waking hours and sleeping hours. The 2020, 2021 (same as 2020) and 2022 McCracken RJDC Staffing Plan takes into consideration the 11 criteria in subsection(a) to any prevailing staffing patterns, the facility's deployment of video monitoring systems and other monitoring technologies, and resources the facility has available to commit to ensure adherence to the staffing plan. The 2021 McCracken RJDC Staffing Plan Development form reviews of the facility staffing plan indicating training for all facility staff.

According to the Superintendent and facility PREA Coordinator, to meet the required staffing ratios, staff are assigned ahead of time for overtime, when possible, Youth Worker Supervisors, Social Services Clinicians, YSPS, Juvenile Facility Assistant Superintendent, Superintendent, and other administration staff assist where they are able or qualified to do so. The auditor reviewed twelve months of facility shift reports, staff schedules, documenting staffing ratios for the entire facility. The reports documented the days, shifts, resident head counts, staff on duty providing direct supervision, and other staff in the building. When the youth ratio is above the 1:8 during waking hours and 1:16 during sleeping hours, in most all shift reports the supervisor or rover is documented and assist with proper supervision and staffing patterns. Staffing deviations, during limited and discrete exigent circumstances are documented on shift reports by the shift supervisor in charge of running the shift. The number of vacancies has reduced from the previous year.

The facility implements policy and practice of having intermediate level or higher-level supervisors, namely the facility Superintendent, Assistant Superintendent, and Youth Services Program Supervisor (YSPS) conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. According to documentation for the first six months of the reporting period, the Superintendent and YSPS were conducting unannounced rounds on a weekly basis and documenting the rounds on the weekly facility tour form. Each entry indicates the day the round was completed, initials of the staff performing the round, and any discrepancies. After further review, the weekly facility tour omitted the time of the round to verify the shift the round occurred on. For the remaining six months, unannounced rounds were conducted and documented on the unannounced facility visit form which indicated the day, time, shift, staff performing the round, number of staff on duty, and any discrepancies. Unannounced rounds were conducted on all three shifts. After reviewing the unannounced round sheets, the auditor recommended conducting rounds at staggered intervals instead of fixed times such

as the top and bottom of the hour or on the quarter of the hour and noting the time of unannounced rounds on each sheet. This is to prevent staff from knowing expected times based on prior unannounced round visits. Higher level staff conducts unannounced rounds namely the facility Superintendent and facility PREA Coordinator. During the evidence review phase, the facility PREA Coordinator provided additional unannounced facility visit form indicating round checks were conducted at staggered and interval times.

The Kentucky Justice and Public Safety Cabinet, Department of Juvenile Justice Policy and Procedures, policy number 910, Detention Services, Facility Security Management page 2, section N, requires each DJJ facility shall post the name of the facility staff that is on duty in a conspicuous location, so that residents are aware of staff that are not the same gender working in a housing unit. Staff of the opposite gender shall announce their presence when entering a resident housing unit, or any area where residents are likely to be showering, performing bodily functions, or changing clothing. A memorandum of clarification by the facility Superintendent stated that during the current review period there have been no circumstances that required deviation from the policy on cross gender viewing or searches. The Kentucky Department of Juvenile Justice, McCracken Regional Juvenile Detention Center Standard Operating Procedures number 910, PREA, Facility Security Management, follows the guidelines set forth in policy 910.

The Department of Juvenile Justice General Directive, Youth Contraband Assessment, and Initial Health Screening Procedure. Dated April 2, 2012, requires the contraband assessment shall consist of a pat down frisk and hand-held metal detector scan and shall be conducted in the view of camera system at DJJ facilities that have camera systems. B. The staff person conducting the pat down frisk and the hand-held metal detector scan shall be the same gender as the youth the second staff person shall observe the process to verify that the correct procedure is followed. The second staff person does not have to be the same gender as the youth.

The Kentucky Justice and Public Safety Cabinet, Department of Juvenile Justice Policy and Procedures, policy number 912, Sexual Orientation and Gender Identity and the Kentucky Department of Juvenile Justice, section O. requires DJJ staff shall not search or physically examine a transgender or intersex juvenile resident for the sole purpose of determining the resident's genital status. Only qualified medical staff may conduct medical exams or searches that involve the removal of clothing revealing breasts, buttocks, or genitalia, except in exigent circumstances as necessitated by safety concerns. P. DJJ staff shall be trained on how to conduct cross-gender pat down searches, and searches of transgender and intersex juveniles, in a professional and respectful manner, and in the least intrusive manner possible that is consistent with security needs. The Kentucky Department of Juvenile Justice, McCracken RJDC Standard Operating Procedures number 912, Sexual Orientation and Gender Identity follows the guidelines of policy 912.

A review of the agency and facility's search training curriculum and acknowledgement of PREA staff training forms confirm training on pat down searches, cross-gender pat searches and searches of transgender and intersex residents are conducted in a respectful and professional manner and that cross-gender strip or cross-gender visual body cavity searches of residents are prohibited. Staff were able to describe what an exigent circumstance would be seeking authorization to conduct such a search. Six residents interviewed stated that they had never been searched by a staff member of the opposite sex gender nor had they ever seen a staff conduct a cross gender pat down search. The residents described how staff conducting pat down and wand searches were conducted in a respectful and professional manner and prohibiting cross-gender strip or cross-gender visual body cavity searches of residents.

Twelve random staff interviewed, reported they do announce their presence when entering the opposite gender living unit. The auditor interviewed fourteen residents and when residents were asked, "does staff of the opposite gender announce their presence when entering your housing area or area where you shower or perform bodily functions," twelve out of fourteen residents reported staff of the opposite gender do regularly announce their presence when entering the unit. Residents knew the reason why staff of the opposite gender announce their presence, referred to as the cover up rule. All residents explained staff of the same gender supervisor showers and when conducting room checks knock on the door to give them notice if residents are changing their clothes.

During the facility tour, the auditor observed the resident's bathroom on each living unit, which has a separate shower and toilet that allows for privacy. Residents using the toilet or taking a shower is completed one at a time. All interviewed residents indicated showers are conducted in an orderly manner and are fully dressed when leaving their rooms to shower and when they return back to their rooms. Facility staff and resident interviews confirmed all residents are able to shower, perform bodily functions and change clothing without non-medical staff of the opposite gender viewing them. The McCracken RJDC Standard Operating Procedure, number 702.3, Personal Hygiene and Clothing Issue details the procedures for hygiene, clothing, showers, and bathroom breaks.

While on-site, there were no transgender or intersex residents housed at the facility. If the facility were to receive a transgender or intersex resident, the agency/facility staff will not search or physically examine a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, the facility will determine during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. Should the facility house a transgender or intersex resident in population when a pat down search is required, the facility has the resources to conduct the search based on the resident's preference.

A review of the Pre-Audit Questionnaire and confirmed by staff interviews:

- In the past 12 months, the number of cross-gender strip or cross gender visual body cavity searches of Residents reported was zero.
- In the past 12 months, the number of cross-gender strip or cross-gender visual body cavity searches of residents that did not involve exigent circumstances or were performed by non-medical staff reported was zero.
- The number of pat-down searches of female Residents that were conducted by male staff reported was zero.
- The number of pat-down searches of female Residents conducted by male staff that did not involve exigent circumstances reported was zero.
- In the past 12 months, the number of transgender or intersex residents search or physically examine for the sole purposes of determining the resident's genital status was zero.

Interview Results:

- All fourteen (14) residents stated that they and other residents are never naked in full view of staff, when using the toilet, showering, or changing clothing.
- All residents interviewed have undergone a pat or wand search conducted by same gender staff and are conducted in a professional and respectful less intrusive manner.
- There is always a male staff on all shifts. Male staff interviewed confirmed they have never seen a female search a male resident.
- Based on the above listed information, the agency and facility meet the standard and complies with the standard for the relevant review period.

The Intake staff conduct an interview at intake to ascertain information about a juvenile's personal history and behavior to reduce the risk of Sexual Abuse by or upon a juvenile. The agency and facility use Victimization and Sexual/Physical Aggression Screener instrument. At a minimum, McCracken RJDC is required to attempt to ascertain information about: prior Sexual victimization or abusiveness; any gender nonconforming appearance or mannerisms, or self-identification as lesbian, gay, bisexual, transgender, or intersex, and whether the juvenile may, therefore, be vulnerable to sexual abuse; current charges and offense history; age; level of emotional and cognitive development; physical size and stature; mental illness or mental disabilities; intellectual or developmental disabilities; physical disabilities; the juvenile's own perception of vulnerability; and; any other specific information about individual juveniles that may indicate a heightened need for supervision, additional safety precautions, or separation from certain other juveniles. Information is ascertained through conversations with the resident during the intake process and medical health screening and by reviewing court records, case files, facility behavioral records, and other relevant documentation from the resident's file.

Resident file review verified the facility administration meets with the resident within 24 hours of admission, exceeding the standard within 72 hours and show re-assessments taking place on a quarterly basis. Also, at intake, administrative (intake) staff review in detail the resident reception summary and youth acknowledgement form. The agency policy and facility practice require that the resident's risk level be reassessed periodically throughout the resident confinement. Risk reassessments are documented using the Victimization and Sexual/Physical Aggression Screener instrument. Also, at intake, administrative (intake) staff review in detail the resident reception summary and youth acknowledgement form and note the details on every resident DJJ-McCracken RJDC Progress Note form. The reviewed documents contained all information required by the standards. Copies of youth assessments and reassessments were also provided and reviewed. The facility's policies limit staff access to this information on a "need to know basis."

KDJJ ensures that appropriate controls on the dissemination of information obtained through the classification process are in place and that the information is handled with the highest level of confidentiality and is not exploited to the resident's detriment by staff or other residents. This information is contained in resident folders, which are stored in the office and locked and are thus located in a secure area not accessible by other residents and staff.

- Resident assessment records were reviewed and indicated residents are screened within the required timeframes and were re-assessed for risk of vulnerability and aggressiveness based on reporting sexual abuse.
- Based on the above listed information, the agency and facility meet the standard for the relevant review period.

The Kentucky Revised Statutes (KRS) 15A.020 Organization of Justice and Public Safety Cabinet specifies which agencies are required to make a report to include the Department of Juvenile Justice staff. The Kentucky Revised Statutes (KRS) 500 KAR 13:020, Office of Investigations, establishes procedures for investigations by the Office of Investigations.

The auditor contacted a multitude number of community advocate organizations such as Just Detention International, Kentucky Sexual Assault Kentucky Association of Sexual Assault Programs (KASAP), Lotus Inc., and the Kentucky State Police to inquire if that agency or facility had received any information regarding the facility. A check of their records at the four organizations showed no complaints on file regarding the parent agency, KDJJ or facility.

Fourteen interviewed residents indicated they can make a report of sexual abuse using both internal and external methods,

specifically, two to three methods such as tell a trusted staff member, third party reporting by telling a parent, attorney, or court officer, call the IIB 1-800 call number, and the local social services agency. Fourteen residents explained they had unlimited and reasonable access to make a telephone call to report sexual abuse either through their attorney or parent and guardian.

The agency and facility use a wide array of resources to education residents on multiple ways to report sexual abuse and harassment, such as the Kentucky Department of Juvenile Justice, McCracken RJDC Orientation Handbook, documentation on the grievance process, youth education curriculum, acknowledgement forms, and agency/facility brochures and pamphlets.

During the tour, the PREA audit notice was posted throughout the facility that were accessible for staff and residents. Resident education, reporting posters and grievance box postings were posted in some but not all areas of the living units. This was due to the facility undergoing a new coat of wall painting. The auditor recommended posting all reporting postings on fixed objects on all living units as a reminder to residents. During the evidence review phase, the facility provided the auditor with photographs verifying living units had the required reporting posters. The resident grievance boxes are located in several locations such as living units, common areas, and in the admissions intake area. The auditor tested the grievance process by placing a form in the grievance box. The PREA Coordinator notified the auditor of receiving the notice and was within the required timeline pursuant to the agency policy. Residents can report sexual abuse and harassment to a private entity outside of the facility by reporting such incidents to the IIB hotline. The notice (in the form of a poster) had the mailing address where residents can report in writing. A test call was completed to the IIB 1-800 number, and the investigator responded immediately while he also explained the reporting and investigating process when a resident reports sexual abuse and harassment.

The resident's knowledge and understanding of all the ways they can make a report of sexual abuse was evident and emphasized the agency and facilities importance of resident sexual safety and taking significant seriousness to implementing the PREA standards both in policy, procedures, and applying into daily operations.

Interviews with the Agency Designee/PREA Compliance Officer and facility Superintendent indicates residents are not detained solely for civil immigration purposes shall be provided information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security and that during the current review period there have been no circumstances where a youth made a verbal report of abuse or harassment to staff that required the report to be documented.

The facility staff has a method to privately report sexual abuse and harassment of residents. They may do so by calling the PREA/IIB Hotline for private reporting. Staff must accept and promptly document reports that are made verbally, in writing, anonymously, and from third parties. The agency distributes publicly through the KDJJ website the e-mail, address, and information on how to report sexual abuse and sexual harassment on behalf of the resident and the KDJJ policy regarding the referral of allegations of sexual abuse or sexual harassment for criminal investigations. At the time of hire, staff complete the new hire orientation PREA training and sign the acknowledgment form. On a yearly basis, all staff receive refresher training to include methods to make a private report of sexual abuse or harassment such as calling the IIB hotline number by completing the Phase 1 PREA Training and sign the acknowledgment form indicating they understood the training. Staff members are instructed to keep the reported information confidential and only discuss it with the appropriate officials who have a need to know to perform their duties. Persons who report sexual misconduct will be free from retaliation. Residents can report sexual abuse and harassment to a private entity outside of the facility by reporting such incidents to the IIB hotline. The notice (in the form of a poster) had the mailing address where residents can report in writing.

All facility staff are trained on first responder security protocols - all non-direct care staff who may receive a disclosure are trained to immediately inform a security staff of the PREA allegation. Those staff designated as non-security staff members such as volunteers, interns, and contractors, acknowledge and understand they inform a security staff that is posted within the immediate area. The McCracken RJDC Sexual Assault First Responder Plan is available for staff reference in paper and database forms located in the staff office. The plan outlines the roles and responsibilities of safety and security staff, first responders, important contact numbers, and an area to document telephone contacts and numbers called during an allegation. Seven out of ten random staff interviews validated their knowledge of actions to be taken upon learning that a resident was sexually abused; random staff interviewed had the confidence and knowledge in providing the action steps identified in the policies and procedures.

Interviews were conducted with random staff and Staff First Responders (security and non-security) and most staff were unable to recite First Responder responsibilities in accordance with facility policy when it is learned an offender was sexually abused. Random staff interviews indicated difficulty in providing the action steps identified in the policies and procedures, had limited knowledge of knowing all responsibilities and duties as first responders. The auditor recommended corrective action that staff must receive additional follow up training in that area to meet the standard. During the evidence review phase, on July 19, 2022, the facility PCM submitted a memorandum stating all staff reviewed the first responder action plan and began having unannounced quizzes for each staff member to verify staff read, know, and comprehend the material.

A review of the Pre-Audit Questionnaire and confirmed by staff interview:
