Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	1
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>Auditor discussed with other staff and all residents.</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
88. Informal conversations with staff during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	No text provided.

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="" type="radio"/> Yes <input type="radio"/> No
91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	No text provided.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

The resident population at Northern Kentucky Youth Development Center consists solely of males with a maximum capacity of forty-four (44) residents. The average daily number of residents for the past twelve months was six (6). Northern Kentucky Youth Development Center provides long term committed programming to juvenile sexual offenders. According to the 2021 Development Process Form staffing plans, the facility has developed, implemented, and documented a staffing plan that provides for adequate levels of staffing, and where applicable, video monitoring to protect residents against sexual abuse.

Youth Worker series staff members are scheduled to cover three shifts in order to provide coverage around the clock. The number of staff on each shift may vary, but always adheres to staff-to-resident ratios as outlined in DJJ Policy and in accordance with PREA standards. Northern shall not deviate from this plan. Should the need arise, there is a system in place to assign overtime fairly in order to provide necessary coverage. At times and in accordance with DJJ Policy 319, staff members who are certified to physically restrain residents, but do not fall within the Youth Worker series, are utilized to meet staffing ratios and provide adequate supervision of residents. The 2021 Staffing Plan takes into consideration the 11 criteria in subsection(a) to any prevailing staffing patterns, the facility's deployment of video monitoring systems and other monitoring technologies, and resources the facility has available to commit to ensure adherence to the staffing plan.

The 2022 NKYDC Staff Meeting Minutes notes PREA items including review of the facility staffing plan indicating training for

all facility staff. At times, the Youth Service Program Supervisor, Assistant Superintendent, or other qualified staff members are utilized to meet the staffing plan requirements and ratios. Staff members are aware that overtime may be required to ensure adequate staff-to-resident ratios are maintained. Current demographics of our unit staff make it unlikely that it would be problematic, but, if necessary, ensuring that cross-gender searches and cross-gender supervision of showers is avoided would be considered when determining which staff member is required to work overtime. In the past 12 months, there have been no deviations from the staffing plan or staff-to-resident ratios.

According to the facility organizational chart dated 2022 indicated nearly 20 vacant positions namely the Youth Worker classification series and social services clinicians. The number of vacancies have reduced from the previous year. The auditor reviewed NKYDC Shift Reports and Control Log Shift Recordings documenting staffing ratios for the entire facility. The reports documented the days, shifts, resident head counts, staff on duty providing direct supervision, other staff in the building. Based on the documentation, the facility maintains eight to one (8:1) juvenile-to-staff ratios during waking hours and sixteen to one (16:1) juvenile-to-staff ratio during sleeping hours, except during limited and discrete exigent circumstances, which shall be fully documented.

Samples of Unannounced Facility Visit (Rounds) sheets were also provided indicating random supervisory checks on the living units and buildings for both day and night shifts. While on-site, the auditor reviewed the unannounced rounds binder and reviewed the last twelve months of checks. The total number of monthly visits range from three to eight times, averaging six times per month covering different or random times. Unannounced rounds are conducted by higher level staff namely the Superintendent, Assistant Superintendent, PREA Coordinator, and Youth Services Program Supervisors on all three shifts. Unannounced rounds were conducted at different times at staggered intervals and staff are not made aware or have a chance to inform other staff.

The Intake staff, either the facility Superintendent and PREA Coordinator conduct an interview at intake to ascertain information about a juvenile's personal history and behavior to reduce the risk of Sexual Abuse by or upon a juvenile. The agency and facility use Victimization and Sexual/Physical Aggression Screener instrument. At a minimum, Northern

Kentucky Youth Development Center is required to attempt to ascertain information about: prior Sexual victimization or abusiveness; any gender nonconforming appearance or mannerisms, or self- identification as lesbian, gay, bisexual, transgender, or intersex, and whether the juvenile may, therefore, be vulnerable to sexual abuse; current charges and offense history; age; level of emotional and cognitive development; physical size and stature; mental illness or mental disabilities; intellectual or developmental disabilities; physical disabilities; the juvenile's own perception of vulnerability; and; any other specific information about individual juveniles that may indicate a heightened need for supervision, additional safety precautions, or separation from certain other juveniles. Information is ascertained through conversations with the resident during the intake process and medical health screening and by reviewing court records, case files, facility behavioral records, and other relevant documentation from the resident's file.

Resident file review verified the facility administration meets with the resident within 24 hours of admission, exceeding the standard within 72 hours and show re-assessments taking place on a quarterly basis. Also, at intake, administrative (intake) staff review in detail the resident reception summary and youth acknowledgement form. The agency policy and facility practice require that the resident's risk level be reassessed periodically throughout the resident confinement. Risk reassessments are documented using the Victimization and Sexual/Physical Aggression Screener instrument. Also, at intake, administrative (intake) staff review in detail the resident reception summary and youth acknowledgement form and note the details on every resident DJJ Northern Kentucky Youth Development Center Progress Note form. The reviewed documents contained all information required by the standards. Copies of youth assessments and reassessments were also provided and reviewed. The facility's policies limit staff access to this information on a "need to know basis."

KDJJ ensures that appropriate controls on the dissemination of information obtained through the classification process are in place and that the information is handled with the highest level of confidentiality and is not exploited to the resident's detriment by staff or other residents. This information is contained in resident folders, which are stored in the office and locked and are thus located in a secure area not accessible by other residents and staff.

Interviews:

- Agency PREA Compliance Officer
- Facility Superintendent
- Facility PREA Coordinator
- Intake Staff
- Staff that perform Screening for Risk of Victimization and Abusiveness
- Mental Health Staff
- Random Staff
- Random and Targeted Residents

Per a review of the Pre-Audit Questionnaire and confirmation by staff interviews the following has been recorded:

- The number of residents entering the facility (either through intake or transfer) within the past 12 months (whose length of stay in the facility was for 72 hours or more) who were screened for risk of sexual victimization or risk of sexually abusing other residents within 72 hours of their entry into the facility was nine (9).

Interview Results:

- With regards to youth screening questions, eight (8) residents interviewed were asked "when first coming to the facility, do you remember being asked questions like whether you have ever been sexually abused, whether you identify with being gay, bisexual, or transgender, whether you have any disabilities, and whether you think you might be in danger of sexual abuse. The eight (8) residents interviewed remembered being asked the questions at Intake. Two residents that have been there longer than 3 months, both residents were asked the question on more than two to three occasions.
- The auditor interviewed Intake Staff and asked if staff could walk him through the intake process. The Intake staff detailed the intake process by explaining the process when a resident is admitted to the facility. The facility PREA Coordinator provided documentation such as the resident handbook, orientation/assessment, resident education Acknowledgment of Understanding forms, consent to disclose abuse, resident rights, mental health referrals. In addition to the procedure for residents who report incidents of sexual abuse, and the rights to be free from sexual abuse and free from retaliation. The Intake staff further stated that all residents who enter the facility receive the information and are made aware of their rights within 24 hours of admission. Nine resident samples indicated intake requirements were met within the twenty-four-hour time frame.
- Staff who performed the Victimization and Sexual/Physical Aggression Screener instrument, the Social Services Clinician, stated that residents admitted to the facility are screened for risk of victimization and abusiveness and expressed knowledge on what the initial risk screening considers and the process for conducting the initial screening. The staff articulated the rationale with obtaining certain information about any gender nonconforming appearance or

manner of identification as lesbian, gay, bi-sexual, transgender, and intersex, and whether the resident may therefore be vulnerable to sexual abuse.

- Resident file records were reviewed and indicated residents are screened within the required timeframes and when applicable were re-assessed for risk of vulnerability and aggressiveness based on reporting sexual abuse.
- Based on the above listed information, the agency and facility meet the standard for the relevant review period.

The facility Superintendent and PREA Coordinator confirmed the practice regarding placement of residents in housing, bed, program, education, and work assignments, the Northern Kentucky Youth Development Center uses all information obtained pursuant to § 115.341 and subsequently uses the information to make housing, bed, program, education, and work assignments for residents with the goal of keeping all residents safe and free from sexual abuse. The agency and facility use the Victimization and Sexual/Physical Aggression Screener instrument.

For housing, bed, program, and programming assignments, the facility Youth Services Program Supervisor indicated the facility reviews Victimization and Sexual/Physical Aggression Screener. The results and planned interventions for the resident determines what bedroom a resident is placed in an assigned unit and bed. For short term room changes, the Youth Worker Supervisor reviews the request and forwards the request to the YSPS for approval. Once the bed assignment is changed, the YSPS updates the unit log and a progress note is made in the booking system. The booking system requires supervisors and administrators to identify the reason for the room change and noted on the daily population report. While on-site, the auditor verified room and programming assignments indicating residents were properly placed according to the VASPA assessment rating using the daily population report. The report is updated when issues are presented and when newly admitted residents are placed at NKYDC. Only the treatment team has the approve to re-assign resident's bed placement and assignments.

Per a review of the Pre-Audit Questionnaire and confirmation by staff interviews the following has been recorded:

- In the past 12 months, the number of residents at risk of sexual victimization who were placed in isolation was 0.
- In the past 12 months, the number of residents at risk of sexual victimization who were placed in isolation who have been denied daily access to large muscle exercise, and/or legally required education, treatment or special education services was 0.
- In the past 12 months, the average period residents at risk of sexual victimization were held in isolation to protect them from sexual victimization was 0.

Interview Results:

- The interviews with the Agency PREA Compliance Officer, Facility Superintendent, and Facility PREA Coordinator, Intake Staff, and staff performing risk screenings indicated that the facility will not place lesbian, gay, bisexual, transgender, or intersex residents in dedicated units or wings solely based on identification status for protecting such residents. In deciding whether to assign a transgender resident to a facility for male or female residents, and in making other housing and programming assignments there was consideration on a case by case basis to ensure the residents health and safety, whether the placement would present management or security problems.
- The PREA Compliance Officer, Superintendent, and PREA Coordinator reported and confirmed the transgender resident's placement was determined on a case by case basis. Specialized staff indicated that the facility is not subject to a consent decree, legal settlement, or legal judgment.
- Staff indicated that the facility ensures against placing lesbian, gay, bisexual, transgender, or intersex residents in dedicated units or wings solely based on their sexual orientation, genital status, or gender identity. They specified that the facility would house these residents in the general population unless requested by the resident for special housing

for safety issues. Interview with transgender resident indicated intake staff was about her safety when first admitted to the facility, placed in general population, and has the opportunity to shower separately without other residents. The facility does not conduct visual body searches and the resident confirmed this process and never underwent a visual body search.

- Interview with one staff who supervise residents in isolation, any isolation from others only as a last resort when less restrictive measures are inadequate to keep them and other residents safe, and then only until an alternative means of keeping all residents safe can be arranged. Isolation is not used in cases related to PREA allegations. Review of the isolation logbook indicated no isolation involving any PREA incidents and used as a minimum to manage behavior.
- Based on the above listed information, the agency and facility meet the standard for the relevant review period.

The Kentucky Revised Statutes (KRS) 15A.020 Organization of Justice and Public Safety Cabinet specifies which agencies are required to make a report to include the Department of Juvenile Justice staff. The Kentucky Revised Statutes (KRS) 500 KAR 13:020, Office of Investigations, establishes procedures for investigations by the Office of Investigations.

The auditor contacted a multitude number of community advocate organizations such as Just Detention International, Kentucky Sexual Assault Kentucky Association of Sexual Assault Programs (KASAP), local rape crisis and recovery centers to inquire if that agency or facility had received any information regarding the facility. A check of their records at the organizations showed no complaints on file regarding the parent agency, KDJJ or facility.

The eight (8) residents indicated they can make a report of sexual abuse using both internal and external methods, specifically, two to three methods such as tell a trusted staff member, third party reporting by telling a parent, attorney, or court officer, call the IIB 1-800 call number, and the local social services agency. All residents explained they had unlimited and reasonable access to make a telephone call to report sexual abuse either through their attorney or parent and guardian.

The agency and facility use a wide array of resources to education residents on multiple ways to report sexual abuse and harassment, such as the Kentucky Department of Juvenile Justice, Northern Kentucky Youth Development Center Orientation Handbook, documentation on the grievance process, youth education curriculum, acknowledgement forms, and agency/facility brochures and pamphlets. During the tour, posters and notices were observed throughout the facility and are designed with bright colors. They were eye-catching and give the five ways to report sexual abuse and harassments.

Posters are placed throughout the facility, namely in the common and living, and programming areas. The resident grievance box is located in several accessible locations throughout the facility. Residents can report sexual abuse and harassment to a private entity outside of the facility by reporting such incidents to the IIB hotline. The notice (in the form of a poster) had the mailing address where residents can report in writing. A test call was completed to the IIB 1-800 number, and the investigator responded in an immediate time frame, and he explained the reporting and investigating process when a resident reports sexual abuse and harassment.

The resident's knowledge and understanding of all the ways they can make a report of sexual abuse was very impressive and emphasized the agency and facilities importance of resident sexual safety and taking significant seriousness to implementing the PREA standards both in policy, procedures, and applying into daily operations. It is very clear that implementation of the PREA standards have been established into practice for the past several years. Memorandums of clarification from the facility Superintendent indicates residents are not detained solely for civil immigration purposes shall be provided information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security and that during the current review period there have been no circumstances where a youth made a verbal report of abuse or harassment to staff that required the report to be documented.

The facility staff has a method to privately report sexual abuse and harassment of residents. They may do so by calling the PREA Hotline for private reporting. Staff must accept and promptly document reports that are made verbally, in writing, anonymously, and from third parties. The agency distributes publicly through the KDJJ website the e-mail, address, and information on how to report sexual abuse and sexual harassment on behalf of the resident and the KDJJ policy regarding the referral of allegations of sexual abuse or sexual harassment for criminal investigations. At the time of hire, staff complete

the new hire orientation PREA training and sign the acknowledgment form. On a yearly basis, all staff receive refresher training to include methods to make a private report of sexual abuse or harassment such as calling the IIB hotline number by completing the Phase 1 PREA Training and sign the acknowledgement form indicating they understood the training. Staff members are instructed to keep the reported information confidential and only discuss it with the appropriate officials who have a need to know to perform their duties. Persons who report sexual misconduct will be free from retaliation. Residents can report sexual abuse and harassment to a private entity outside of the facility by reporting such incidents to the IIB hotline. The notice (in the form of a poster) had the mailing address where residents can report in writing.

A review of the Pre-Audit Questionnaire and confirmed by staff interview:

- In the past 12 months, the number of grievances filed that alleged sexual abuse reported was zero (0).
- In the past 12 months, the number of grievances alleging sexual abuse that reached a final decision within 90 days after being filed reported was zero (0). The number of grievances alleging sexual abuse filed by residents in the past 12 months in which the resident declined third-party assistance, containing documentation of the residents decision to decline, reported was zero (0).
- The number of emergency grievances alleging substantial risk of imminent sexual abuse that were filed in the past 12 months reported was zero (0).
- The number of grievances alleging substantial risk of imminent sexual abuse filed in the past 12 months that reached final decisions with five days reported was zero (0).
- In the past 12 months, the number of resident grievances alleging sexual abuse that resulted in disciplinary action by the agency against the resident for having filed the grievance in bad faith reported was zero (0).

Interview Results:

- All eight (8) residents interviewed confirmed they received information through a numerous sources instructing them how to report any allegations of sexual abuse, sexual harassment, and retaliation.
- Residents gave many ways they could report sexual abuse and harassment; they can report verbally, in writing and through third parties. Residents stated that they have more than three to four ways to report such as calling the hotline, tell a staff member they could trust to report sexual abuse, namely their Social Services Clinicians, Superintendent, and PREA Coordinator.
- Eight residents interviewed were aware of how to access the hotline. They also were knowledgeable of the grievance process and expressed no doubt or uncertainty that if they filed a grievance, the matter would be taken seriously and the matter would be resolved in a timely manner.
- All ten (10) random staff were very knowledgeable and knew of a few ways both staff and residents could report sexual abuse and harassment. The ten random staff knew they were considered mandatory reporters and if they receive a report of sexual abuse, sexual harassment, or abuse they are required by state law to inform their supervisor and report the allegation to the appropriate agencies.
- Based on the above listed information, specifically, the articulation of staff and residents knowing aspects of the reporting processes, ways to report sexual abuse and harassment, and with the thorough outlining of this in numerous policies, procedures, the agency and facility exceeds the standard for the relevant review period.
